WHAT MAKES US DIFFERENT?

Our People First Approach to Staffing

At On Assignment, our focus is on people. On Assignment knows that the core of the right staffing solution is the people involved – we not only ensure that our staffing consultants are experts in the field they represent, but that they learn about the individual applying for the job and the needs of the organization.

Our clients trust On Assignment Nurse Travel's candidate submissions to not only be highly qualified, but a complement to their overall goals. The foundation of this trust is built and maintained through a one-on-one relationship with a dedicated Account Manager who is the primary contact for all of your needs. It's the simple yet remarkably effective difference in our **People First Approach**.

Our business is based on the successful partnerships formed through a thorough understanding of client needs, wants, and expectations.

Our Joint Commission Certified, licensed nurses are recruited from a multitude of specialties nationwide to fill the short- and long-term needs of our clients. However, it is our personalized approach to healthcare staffing that makes us different from most commoditized agencies found today. With On Assignment, you are assured the best clinical and functional matches to meet your unique requirements for both supplemental and permanent staffing positions.

Commitment to Quality: Our Candidate Profiles are RN-approved by a Nurse Manager for Clinical Competency

Our reputation for outstanding service and demonstrated ability to find the top nurses in the country sets us apart. Unlike other agencies who submit large quantities of unqualified files, On Assignment sends you only the best nurse profiles that match the clinical and operational needs of your facility, saving you a great deal of time in finding the right match. Careful consideration is given to all technical skills needed for the job assignment. We have licensed RNs as part of our Account Management teams who, in addition to your dedicated Account Manager, review every candidate to ensure that only qualified profiles that match your clinical requirements are submitted. No other agency offers this level of service!

About Us

On Assignment is a world-class provider of staffing professionals to clients in the healthcare, life sciences, engineering, and IT industries. Our distinctly different **People First** approach to staffing is key to our success in that we focus on fulfilling the unique needs of individual clients and candidates to meet your business objectives. Adopting this people-centric culture has enabled us to celebrate 25 years of staffing success in 2010. And, as a long standing, publicly traded company, you can be assured that we are financially stable with a long history of serving the healthcare industry and hospitals just like you.

On Assignment Nurse Travel is solely focused on recruiting highly skilled nurses from a multitude of specialties nationwide. We have built an outstanding, well-documented track record of providing high quality nursing professionals to healthcare facilities across the country. Our Joint Commission Certified, licensed nurses help fill the short- and long-term needs of our clients. However, it is our personalized approach to healthcare staffing that makes us different from most commoditized agencies found today. With On Assignment, you are assured the best clinical and functional matches to meet your unique requirements for both supplemental and permanent staffing positions. We even go that extra mile to ensure you have the right clinical fit by having our own nurse managers review each profile before it is submitted to you, our client.
